## Balloon Fill Quantities Per Cylinder

Balloon Diameter	X Large	Large	Medium	Small
9"	1200	450	200	80
10"	900	350	150	60
11"	600	250	100	40
12"	400	150	50	20

Everyone Inflates Balloons At Different Sizes, So these Numbers Are Estimates Only! Main Events Is Not Responsible If You Do Not Meet These Estimated Numbers!

### OPERATION

- Read, understand and observe the safety precautions on the cylinder neck label and the warning label on the side of the cylinder.
- Keep cylinder caps in place whenever cylinders are moved or stored.
- Always store cylinders in a well ventilated area and in an upright secured position so they can not be tipped or pushed over.
- Transport cylinders only in a well ventilated vehicle.
- Always use a regulator designed for balloon filling operations. Contact your supplier if questions arise or if more information is needed.
- Check all connections for leaks before filling balloons. **DO NOT USE LEAKY EQUIPMENT.**
- Close the cylinder valve after each use and when cylinder is empty.

- Do not breathe helium from a cylinder or balloon.
  - Do not leave cylinder unattended.
  - Never place cylinders where they could come in contact with an electrical circuit.
  - Do not store cylinders in direct sunlight or near sources of radiant heat.
  - Never use cylinders as rollers.
  - Never allow cylinders to drop or strike together violently.
  - Do not allow anyone to breathe helium from cylinders or from filled balloons.
  - Do not allow children or any unauthorized people to handle cylinders or use balloon filling equipment.
- ∅ **Helium filled balloons last approximately 12 hours.**
- ∅ **Hi-float treatment will make them last approximately one week, which may be purchased at our location.**
- ∅ **No refunds on helium remaining in returned tanks**

**Helium acts as a simple asphyxiant displacing oxygen. If the body is deprived of oxygen, even for a very short period of time, DEATH or serious injury may occur. Exposure to atmospheres containing reduced oxygen (increased helium) will bring about unconsciousness without warning – so quickly, that you will not be able to help yourself. DO NOT UNDER ANYCIRCUMSTANCES ATTEMPT TO INHALE HELIUM THE RESULTING LACK OF OXYGEN MAY LEAD TO DEATH. THIS MAY HAPPEN TO YOU IF YOU INHALE HELIUM.**

**NOTE:** This product is for balloon service only. Do not use for welding applications or any other industrial use.
