SNOWIE Ice Shaver

There is a \$20.00 cleaning charge that will apply to each unit that is not clean upon return.

The Snowie is a compact automatic shaver with tremendous capacity. This machine is fast and easy to operate. You will find that it keeps up with any demand – as fast as the ice is put into the hopper, it is shaved into fine snow. **Important:** Do not operate this machine until you have read and understand the instructions.

ELECTRICAL REQUIREMENTS:

The Snowie 1000 & Little Snowie operate on a 110 volt, single phase, 60 cycle AC current. It is very important to be sure that your electrical supply matches this requirement.

HOW TO OPERATE: ICE REQUIREMENTS:

You may use either ice cubes or block ice in the Snowie. (Be sure if you use the block ice that you break into pieces approximately 3 or 4 inches in size). If pieces are too large they will not fit into the chute. The chute is specially designed to automatically draw ice against the blades and does not require any manual effort.

HOW TO OPERATE

- To shave the ice, turn on the “MOTOR” switch and put ice into the hopper. Continue adding ice until the desired quantity is shaved, then turn the “MOTOR” switch to the “OFF” position.
- Fill the cup with snow, then another tap for over fill. Slide the cup in and up into the cone topper. That's it, no fuss, no mess, just a fluffy, perfectly packed snowie.

OPERATING HINTS:

It is easy to shave large quantities of ice quickly, be sure not to let the ice pile up in the case.
Do not let small children operate this machine.
Keep area dry around the machine.

WARNING:

NEVER put your fingers or any objects into the shaver chute while the motor is running. This may cause serious physical damage. All instructions should be followed carefully to avoid incident. Never allow any metallic or foreign objects to get into the shaver. This could ruin the blade. Blades are ruined by ice picks, scoops, stray nails, washers and small articles that get into the ice. Always be sure to unplug the machine before cleaning or servicing. **MAIN EVENTS PARTY RENTAL WILL NOT ASSUME ANY LIABILITY FOR INJURY DUE TO CARELESS HANDLING OR OPERATION OF THIS EQUIPMENT.**

For Office Use Only
